

Toray Adhesive Tape for TAB

"Toray Adhesive Tape for TAB(Tape Automated Bonding)" has been developed with Toray's fine chemicals and film processing technology.

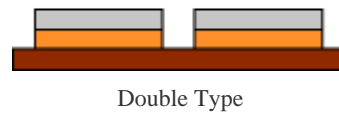

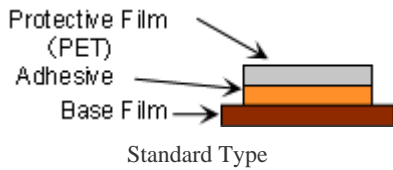

Toray has a top share in the Adhesive Tape for TAB market by pursue for QCDS.

Structure of the Product

General Specification

Format	Base Film Width(mm)	Adhesive Width(mm)
35mm Super Wide	35	29.7
48mm Super Wide	48	42.7
70mm Wide	70	60.6
35mm Super Wide(Double)	70	29.7 x 2
48mm Super Wide(Double)	96	42.7 x 2

General Base Film

Type	Thickness(μm)
Upilex S	50, 75, 125
Kapton® V	125

* Spec can be modified depending on the customers' requirement.

Features

#7100
Excellent Properties De Facto Standard for LCD Driver Application

- Standard type with excellent properties.
- #7100 can be used for LCD Driver Application as well as a wide variety of products.

#8200
High Insulation Reliability Best Choice for PDP Driver Application

- High performance of excellent insulation reliability.
- #8200 is suitable for PDP Driver Application as well as LCD Application.

NEW #9300
High Modulus at High Temperature Suitable for Wire-Bonding Process

- #9300 has high Tg and high modulus at high temperature.

NEW ▶ **Toray COF Materials**

- Toray COF Materials are a fusion of adhesive technology for TAB tape and process technology for FPC materials.
